

Handprint Heart Frame for Wednesday, March 24

Supplies you will need:

- Red (or other color) piece of construction paper, folded in half
- Pencil
- Crayons or markers
- Kid scissors

Instructions:

1. Place hand on folded paper so that thumb and index finger touch the folded edge. See picture below.
2. For best results, a curved thumb will get the best “hump” shape at the top of the heart.
3. Trace with a pencil.
4. Cut out!
5. You can write or decorate as you like on the hands, use the heart to frame a photo, etc. Get creative!
