

Rockin' Submarine for June 16, 2021

In addition to this template, you will need:

- Kid scissors
 - Glue or glue stick
 - Markers or Crayons
 - Blue tissue paper or blue construction paper
1. Color the part of the submarine base with the three circles and two curved lines. Color the submarine top, propeller, and fish.
 2. Cut out the submarine top, propeller and fish.
 3. Cut out the submarine base, following the outer edge of the biggest circle. Fold the circle in half along the dotted line.
 4. Use the tabs on the bottom of the submarine top to glue it behind the submarine base. (see picture)
 5. Scrunch up the pieces of tissue paper. Put glue on the outer edge of the circle (under the submarine) and attach scrunched up tissue paper. (If you don't have blue tissue paper, you can tear up pieces of blue construction paper or you can just color in the bottom.)
 6. Glue the propeller to the back of the submarine.
 7. Glue the fish on top of the "ocean."
