

Book Parts for Accordion with Folded Pockets

By Yvonne Perez-Collins

6 sheets of colored copy paper (regular text weight) for the main folded 'pages' or folded pockets of the book (sky, sunflower, lilac, mango, lime, bubble gum or your choice)

2 sheets 8 1/2 " x 11" of white or any light color copy paper (regular text weight) Each sheet to be cut into four strips 2 5/8" x 8 1/2"

There will only be a small strip left over since you will be using the full width. Then you will cut these into 24 squares by crossing the two strips as shown in class (watch the video).

Cardstock spine: (one of each)

2 7/8" x 5 1/4" with folds at 1 1/4" center spine

2 7/8" x 4 3/4" with folds at 7/8" center spine

2 7/7" x 4 3/8" with folds at 3/8" center spine

Cardstock cover- one 2 5/8" square

1/8" satin ribbon centered behind front cover-(21" length) with 8 1/2" to the right side of the center front cover and 12 1/2" to the left of the center front cover.

When you turn the cover over to the WRONG side to glue the ribbon, hold the ribbon on the correct side so it's not backwards! That's why I glued your cover. I marked a 'T' for 'top' so you can erase when you decorate the cover. You can cut a longer ribbon and decide how to center it yourself.

UHU glue stick or clear Tacky glue

scissors

ruler

mechanical pencil

ruler

colored pens, pencils to decorate cover, pages
