

Researching your Family Roots

Genealogy Research

Improving Genealogy Research Skills

Tuesday, August 29 • 6:00 - 8:00 p.m.
9th Floor, Shiley Special Events Suite

This class is for those contemplating constructing a family tree, as well as for experienced genealogy researchers.

- Tools and techniques to improve your research efficiency and accuracy.
- Detailed demonstration using three websites.
- Development and use of place holders to improve and focus your research efforts.
- Use of worksheets, including free census worksheets for attendees.
- Dealing with transcription errors, improving image quality, shortcuts that save time, and publishing using a family tree application.
- Using DNA to establish collaboration and the possibility of finding family “secrets”.

Presenter: Don Williams, member and class presenter for the San Diego Genealogical Society.
