Introduction to 3D Design

Learn how to create a 3D model using Tinkercad!

Saturday, May 24 • 1-2pm • IDEA Lab

Are you a middle schooler interested in 3D design? In this class, learn how to create a custom 3D model using the web-based platform, Tinkercad.

Students will begin by designing a personalized keychain with their name, and will then design fun summer-themed shapes—just in time for the season!

REGISTER HERE

**Open to ages 10-13.
Registration is required.
Space is limited.**
