

INTELLECTUAL PROPERTY SERIES 2018:

Patent Application Filing Basics

Monday, April 30 | 6:30pm

San Diego Central Library | Shiley Suite

Patent Application Filing Basics Seminar

The San Diego Intellectual Property Series continues with our next installment: Patent Application Filing Basics. U.S. Patent and Trademark Office (USPTO) West Coast Regional Director John Cabeca returns to present the basics of filing a patent application. This session is designed for inventors, entrepreneurs, and those who would like to learn more about filing a patent application.

The seminar focuses on capturing your invention throughout your disclosure (e.g., specification, drawings, and claims) and will briefly discuss formality requirements (e.g., fonts sizes, margins, etc.). Additionally, attendees should have a basic understanding of patents.
